# Seminar

10 sparkplugs

Discussion

Carrier pigeon  
crossflow

Synthesis  
& mapping

Tea!  
15:40

Plenary: Synthesis and reflection

---

# About the synthesis

- Map and combine our contributions
- Find alignments and differentiators
- Push boundaries
- Look for emergent insights

# About the Declaration

## In the face of...

*5 key problems and opportunities that are driving rangelands decline or health.*

## We need...

*4 key changes that are needed to reverse the decline and encourage the trend upwards.*

## Therefore we agree to...

*3 actions in common that the signatories agree to undertake within (1) and (3) years, plus other actions committed individually.*

## (Other)

*...that which is essential, but does not fit with the other three.*

---

# *Four aspirations*

## *Listen*

Listen and keep listening until you can re-state the other other person's point so well they **smile**.

## *Learn*

Leave this event knowing more than when you came here. Ask questions. Be **curious**.

## *Lead*

Like a wedge of geese: **take your turn** at the front, fly hard, then throttle back.

## *Lighten up*

We're here to explore. We're here to find something more than any one of us has been able to achieve. **Enjoy** it!

---

# Rangelands Policy Dialogue

***AFTER DROUGHT AND  
DEBT, WHAT NEXT?***

---

---

# Spark plug session 1

***10:30 - 12:10***
